**Stock Hiding Facility**

As part of our continuing efforts to improve the usefulness of BearingNet we have added a facility whereby you can choose to prevent specific companies from being able to view your inventory. This will give you more control over your own inventory.

This facility would only be used when there are specific companies using BearingNet that you do not want to view your inventory. This could be a manufacturing member, close competitor or a company with whom you will never trade.

It should only be used when absolutely necessary.

**Instructions**

To select a company that you do not want to view your inventory go to ‘[Your Account](#)’

Then in the ‘[Company Details](#)’ box select ‘[Sales Contact Settings](#)’

Select	Company	Responsible for Sales	Can see your stock	Country
<input type="checkbox"/>	A & D Danubius Bearings	Peter Annis	Yes	Serbia
<input type="checkbox"/>	A & P Bearings Ltd	Peter Annis	Yes	UK
<input type="checkbox"/>	A & S Bearing	Peter Annis	Yes	USA
<input type="checkbox"/>	A .J. Wielens BV	Peter Annis	Yes	Netherlands
<input type="checkbox"/>	A D Bearings	Peter Annis	Yes	UK
<input type="checkbox"/>	A S Bearings & Drives Services	Peter Annis	Yes	UK
<input type="checkbox"/>	A. Goldenstein	Peter Annis	Yes	Germany
<input type="checkbox"/>	A.B.A. Bearing Universo Better y Cia. S. en C.	Peter Annis	Yes	Colombia
<input type="checkbox"/>	A.I.S. Auvergne Industrie Specialities	Peter Annis	Yes	France
<input type="checkbox"/>	A.R. Los Restrepos	Peter Annis	Yes	Colombia
<input type="checkbox"/>	A.S.F.I. André Simon Fournitures Industrielles	Peter Annis	Yes	France

This will then present you with the ‘[Sales Contact Settings](#)’ screen where you can see which of your users are assigned to which company.

In the ‘[Set Company](#)’ table you will see the ‘[Can see you stock](#)’ column where everything is set to ‘[Yes](#)’. This means that these companies can see items from your inventory when they search on BearingNet.

To hide your inventory from a specific company firstly find the company in the ‘[Set Company](#)’ table by selecting by Company Name or Country.

Once the Company Name is displayed in the ‘Set Country’ table then click on the ‘Yes’ in the ‘Can See Your Stock’ column and the value will be changed to ‘No’.

This means that no items of your inventory will be shown to that company when they search on BearingNet.

If you decide to change this at a later date, follow the same instructions except this time you will click on the ‘Can see your stock’ column on the ‘No’. This will then change to ‘Yes’ and will unhide your inventory.
